

Dear Editor,

Thank you for the positive feedback and the opportunity to revise and resubmit our manuscript "Is Stephen Curry really a guard? A new perspective on player typologies using functional data analysis" (DGJQAS.2025.0068).

We also thank the Associate Editor and the two Reviewers for the comments and suggestions, which we addressed in the revision. Enclosed you may also find the point-to-point replies to the comments. The significant changes appear in blue color.

We hope that our revised manuscript can be considered for publication in the *Journal of Quantitative Analysis in Sports*.

Sincerely,

Steven Golovkine and Edward Gunning
